B2B APPLICATION

DATA MANAGEMENT

AUTOMATED PROCESSING

INTEGRATED SYSTEMS

EXCEPTION REPORTING

SINGLE EDI PLATFORM

OrderBahn is developed to resolve the most compelling issues involving the data processing for Order Management in Contract Office Furniture Dealerships. Many a times the Project Managers end up spending thirty to thirty five percent of their time in managing the Order Management which includes many steps from Purchase Order to Invoicing. Contact us today to understand how our system can make working in this business function easy and make your Project Manager more a Customer Solution Provider

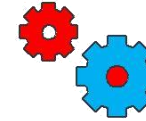

flexible solutions for your business needs

DATA MANAGEMENT

We integrate Document Management Software with your Purchase Order, Acknowledgment, Shipment Notifications and Invoices with exception reporting. Our back office transactions processing take it to next level by providing low cost transactions processing solutions for your business

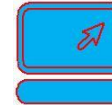

AUTOMATED PROCESSING

Once Orderbahn Integrates with your system, it lets you make the Purchase Order in it or import the Purchase Order from your system to initiate the Order Chain Process with the manufacturer system. Once the Acknowledgement is received it matches the products, prices, attributes and quantities.

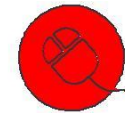

INTEGRATED SYSTEMS

Our software experts can integrate with many systems. Currently we are working with many national leaders

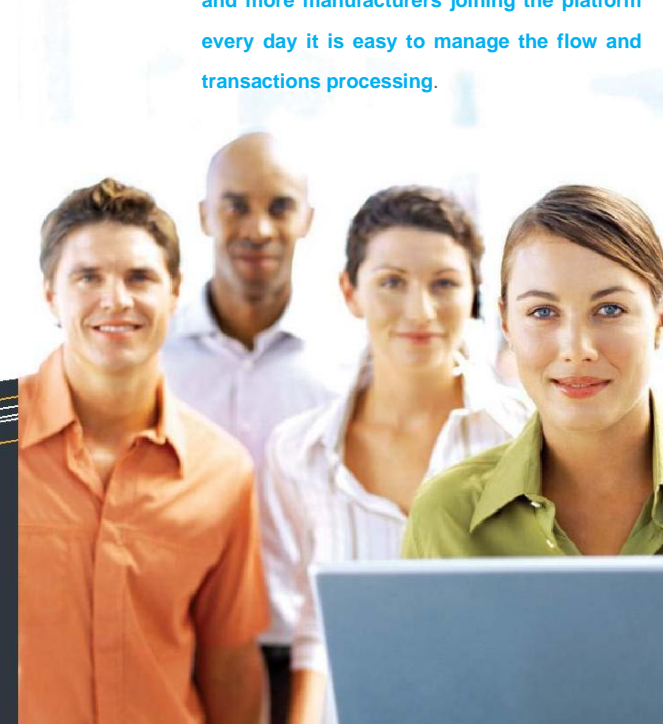

EXCEPTION REPORTING

Robust exceptions reporting let you find the number of transactions processed, pending or under review by your team. It helps you in developing staff, product delivery management and more

SINGLE EDI PLATFORM

Our solutions allows you to integrate with as many as manufacturers in no time. With more and more manufacturers joining the platform every day it is easy to manage the flow and transactions processing.
